

## **Todd Dolson – Statement of Purpose**

In addition to a strong passion for architecture and design I bring unique experiences that can benefit the AIA Georgia Board. For qualifications I have over 27 years of experience working on a wide variety of projects type with equally diverse clients. Having served as an At-Large Director on the AIA Georgia Board for the last two I have taken on state-wide advocacy which has required new approaches and tact in the pandemic world. I am also member of the Chattahoochee Nature Center board of trustees where I work hard to raise money for this very important non-profit dedicated to environmental education, advocacy, and stewardship. In addition, I have served on the Southern Regional Council of the Society of College and University Planning (SCUP) for last twelve years. I have rolled off that council to work with SCUP on a national committee that supports their annual national conference. My career has also included time spent on the client side of our profession having served as a project manager and as Associate University Architect at Emory University.

I would be honored to continue to support AIA Georgia in its pursuits of developing the Citizen Architect and bringing a heightened understanding and appreciation of our profession to the communities we serve and legislative bodies that serve us. I want to bring my relevant experience and stories from an allied non-profit organization, the perspective of both the design professional and the client, and my experience with a wide variety of project and client types to help build success at AIA Georgia.

\*See next page for resume.

## WILLIAM TODD DOLSON, AIA

### EDUCATION

TODD DOLSON  
(Continued)

- **Delta Employees Credit Union Building**, Atlanta, GA; Project Designer.
  - 2000 Award of Excellence-Low Rise Buildings Category, American Concrete Institute/GA Chapter
- **Philips Arena Marquee Retail Center**, Atlanta, GA; Project Designer. This project is located directly across the street from CNN Center and Centennial Olympic Park and a block from the new professional arena for the Atlanta Hawks and Thrashers. This facility houses 3,000 square feet of speculative retail space and has been designed to hide an existing parking deck from public view. The oversized marquee or "billboard building" promotes the Arena and various Turner organizations while responding to the civic qualities of the site and adjacent park.
- **Thomas County Historical Society Museum Master Plan**, Thomasville, GA. Project Manager/Designer.
- **Papa John Stadium** for University of Louisville, Louisville, KY. Staff Architect
- **Petersen Events Center** for the University of Pittsburgh, Pittsburg, PA. Staff Architect
- **Atlanta Arena Public Improvements**, Atlanta, GA; Project Designer. Responsibilities included working with the owner and city developing supporting projects to the new arena as well as being integral participant in the coordination of the arena design team, graphic design team, and CNN Center renovation design team. This project provided new public plazas, pedestrian promenades, two new parking decks (1000 cars total); one renovated parking deck (2000 cars) and infrastructure improvements for the Philips Arena. This project covered an area of 13 acres in downtown Atlanta, and integrated the arena, CNN Center, the MARTA station, the Georgia World Congress Center plazas, elevated vehicular viaducts, and existing parking facilities.
- **International and Domestic Ticket Counter Expansion & Renovation**, Delta Air Lines, Hartsfield-Atlanta International Airport, Atlanta, GA; Project Architect.
- **Baggage Claim Addition and Renovation**, Delta Air Lines, Hartsfield-Atlanta International Airport, Atlanta, GA; Team Architect

EXPERIENCE WHILE AT CULPEPPER, MCAULIFFE & MEADERS, INC.
